1971. The reproductive biology of *Sinella curviseta* (Collembola: Entomobryidae) in laboratory culture. *Rev. Ecol. Biol. Sol* 8: 451-463.

---

CENTENNIAL OF ENTOMOLOGY. Cornell University has announced a Centennial of Entomology, celebrating John Henry Comstock's graduation and the founding of studies in entomology at the University. A symposium on *Insects, Science and Society* will be held on October 14 and 15, 1974. The speakers at the symposium will be as follows:

Howard E. Evans, Colorado State University: *The Comstock Heritage*.

John J. McKelvey, Jr., The Rockefeller Foundation: *Insects and Human Welfare*.

Edward O. Wilson, Harvard University: *Insect and Human Societies*.

John S. Kennedy, Imperial College Field Station, Ascot, England: *Insect Dispersal*.

Richard D. Alexander, University of Michigan: *Insect Communication — Acoustical*.

Wendell L. Roelofs, New York State Agricultural Experiment Station, Geneva: *Insect Communication — Chemical*.

Mano D. Pathak, International Rice Research Institute, Philippines: *Patterns of Interaction between Plants and Insects*.

T. R. E. Southwood, Imperial College Field Station, Ascot, England: *The Dynamics of Insect Populations*.

Powers Messenger, University of California, Berkeley: *Parasitoids, Predators and Population Dynamics*.

Waldemar Klassen, U.S.D.A., ARS-Plant Industry Station, Maryland: *Pest Management — Organization and Resources*.

L. Dale Newsom, Louisiana State University: *Pest Management — Concept to Practice*.

Further information can be obtained from the Chairman, Department of Entomology, Cornell University, Ithaca, New York 14850.
